

DICAL -2 is a quaternary ammonium based liquid disinfectant with multiple germicidal applications. DICAL-2 is an effective final rinse sanitizer for dishes, glasses and utensils and can be used to spray down food processing areas. DICAL-2 can also be used to disinfect floors, walls, counter tops, lavatory surfaces, garbage pails and other hard surfaces. DICAL-2's high concentration provides cost in use that is equivalent to or less than chlorine bleach. It also reduces storage and disposal requirements. DICAL-2 requires no rinsing and offers a reduced chemical hazard risk compared to chlorine bleach.

Where To Use

- Hospitals
- Hotels
- Schools
- Restaurants
- Health Clubs

Dilution

See Directions.

Directions

“It is a violation of Federal law to use this product in a manner inconsistent with its labeling.”
