

# Master Blend Blitz HD Concentrate

M0449065

*Environmentally friendly product that contains the active ingredient Hydrogen Peroxide. Performs as well as products containing bleach and safer than restroom cleaners containing aggressive acids. Versatile enough to go from grout brightening to carpet spotting.*

### Where To Use

Schools	Office Buildings	Hotels
Nursing Homes	Carpet Cleaning	Grout Lines
Ceramic Tile	Health Clubs	Soap Scum removal
Restaurants Shower	Rooms	Mold Removal
		Mildew Removal

### Dilution

1-2 oz per gallon depending on soil load.

### Directions

Read the entire label before use. This product contains an oxidizer and powerful cleaning agents. Test in an inconspicuous area before use.

#### Spray and wipe applications

Dilute into a spray bottle or pail according to the chart above. Spray onto surface or directly onto cloth or sponge and wipe surface clean. For mildew and other tough soils on hard surfaces, thoroughly wet the soiled area and let set for 5 minutes. Agitate if necessary, then wipe clean. For carpets and upholstery, wet the soiled area and blot with a clean dry towel. Rinse the area with water after use. For glass and Plexiglas: Follow the dilution directions above. Spray onto surface or directly onto cloth or sponge and wipe surface clean.

#### Mop and Bucket Applications

Dust mop floor prior to cleaning. Remove any gum or other foreign material. Dilute product according to directions above into a bucket. Using a clean mop apply the solution to the floor. Wring mop out and pick up excess solution. Rinsing is not necessary. Buffing with a white pad will enhance the shine. When solution becomes dirty, a new mixture should be made.

#### Automatic Scrubbing

Dust mop floor prior to cleaning. Remove any gum or other foreign material. Dilute product according to directions above into an automatic scrubbing machine. Pick up excess solution. Rinsing is not necessary. Buffing with a white pad will enhance the shine.

#### Carpet Extraction

Pre test carpet for color-fastness. Apply diluted solution to an inconspicuous spot and wipe with a white cloth. If no bleeding occurs, proceed with extraction. Remove furniture when possible. Vacuum carpet completely. This product can be used as a prespot to remove stains and stubborn soil. Dilute product according to directions above into the extractor tank, and extract entire carpet area. Do not over wet carpet. After extraction, pile can be restored using a deck brush or pile rake. Stay off carpet until dry.
