

A detergent - based lubricant formulated to produce a thick, rich foam that when applied to the bed of asphalt, truck's will inhibit the asphalt from sticking to the bed. No unapproved solvents are used in the manufacturing process of this product, which might prevent its use on jobs where solvents are restricted.

Where To Use

Asphalt Truck Beds

Dilution

1/30 – 1/100

Directions

The bed of the truck should be relatively clean. If there is existing asphalt from previous load it should be removed. Using foaming equipment, cover ENTIRE bed of the vehicle prior to loading asphalt. Be sure to coat the back ends and chute area well.

Technical Specifications

COLOR:	Yellow	VISCOSITY:	Viscous
FORM:	Liquid	STORAGE(Unopened):..	1 Year @R.T.
SCENT:	Odorless	BIODEGRADABLE: ...	Yes
pH:	7.5	WEIGHT/GAL:	8.3 lbs.
FLASH POINT:	None	SHIPPING CLASS:	None
FOAM:	High	PACKAGING:	5 gal, 55 gal
TYPE:	Detergent Based Lubricant
