

A superior quality sealer/finish formulated to seal and protect terrazzo, quarry tile and other stone flooring. Terra Brite Plus offers excellent gloss and durability and can be maintained at any speed for a long lasting, enhanced shine.

Where To Use

Terrazzo Concrete
Quarry Tile Ceramic Tile

Dilution

As is.

Directions

To seal and protect floors, use minimum of 3 coats. For optimum gloss, seal with 2 coats of Simoniz® Ura Seal. Prior to applying finish ensure that the floor has been completely stripped of all old finish. This can be accomplished using a Simoniz® stripper. Follow stripping procedure from the Simoniz® Floor Care Manual. Apply Terra Bright Plus to dry floor that has been stripped, scrubbed or cleaned. Apply in thin coats, evenly. On cleaned or scrubbed floors apply as necessary. Be sure to use a different mop for stripping, sealing and finish. Allow 24 hours for curing before burnishing. Floors should be dust and damp mopped on a regular basis to keep a long lasting shine.
