

## Premium Quality Restoration Product

*A high solids dilutable one-step cleaner maintainer. This restorer is used to maintain the fresh polished look between strippings and applications of new coats of floor finish. Removes black heel marks, scuff marks, small scratches and returns finish to its original gloss. Economical for large areas. Eliminates the need to clean with a neutral cleaner prior to buffing.*

### Where To Use

Vinyl Tile	Asphalt Tile	Concrete that has been sealed
Vinyl Asbestos	Sealed Wood	Finished Stone Flooring
Linoleum		

### Dilution

Light Cleaning and Restoring: 1/64 (approximately 2oz/gallon)  
Medium Cleaing and Restoring: 1/32 (approximately 4oz/gallon)  
Heavy Cleaning and Restoring: 1/16 (approximately 8oz/gallon)

### Directions

Dust mop floor and remove gum and other foreign materials. Dilute Ultra Line Restorer based upon the condition of the floor (see dilution chart above). Apply with an auto scrubber or mop. Scrub or mop floor immediately, let product dry to a haze. Buff or burnish floor to a high shine.
