

Liquid Laundry Booster 211

Laundry Break / Alkaline Builder

Laundry

Description

A high alkaline liquid laundry booster designed to increase the cleaning effectiveness of detergents, suspend soils, and guard against soil redeposition. Saponifies greases, oils, and fats. Reduces the amount of detergent required for each load by 25% or more. This product is formulated for multi-component automatic dispensing systems where the toughest, most troublesome laundry problems exist and is not recommended for fine or delicate fabrics. Highly concentrated for use in hotels, motels, schools, hospitals, and nursing homes.

Directions for Use

Always follow garment manufacturers general washing instructions to retain quality of garment. For general laundry usage (top load machines), use approximately 3 ounces per load. For larger machines or for heavier soiled loads use 4 ounces per load. Automatic dispensing units are most widely used today for simplicity, due to the fact that they are programmed to deliver exactly the amount needed for different sized loads and solid levels. In most cases, the average 50-pound commercial machine will require 4 to 8 ounces per load. This product should be added in the first cycle of the laundry cycle along with a laundry detergent.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- High Alkaline
- Economical highly concentrated
- Formulated for multi-component systems
- Quickly breaks down greases and oils
- Rinses freely and completely

Specifications

Appearance:	Clear Liquid
Odor:	None
PH	13-14
Biodegradable:	Yes

Dilution

Top Load Machine.....	(3-4 ounces / per load)
30lb Commercial.....	(3-6 ounces / per load)
50lb Commercial.....	(4-8 ounces / per load)

Available Sizes

- 5 gallon Pail / Item # 21105
- 15 gallon Pail / Item # 21110
- 55 gallon Drum/ Item # 21106
