

# SPECIALIZED SURFACE ENHANCEMENT PRODUCTS

Vision Blade®

Reduces glare in the rain and repels water for remarkable improved vision.

Provides hydrophobic protection against rain and environmental elements.

Windshield protection that improves vision clarity.

## What is VisionBlade®?

Use VisionBlade on any glass to repel water. Unlike other commercial rain repellents that can wash away in a matter of days, VisionBlade forms a chemical bond with glass that increases water repellency, causing it to bead and shed. VisionBlade glass treatment lasts up to six (6) times longer than silicone-based products.

Designed for professional application on aircrafts, auto windshields, side windows, rear windows, glass shower doors or any other glass surface, VisionBlade is a long-lasting glass treatment.

- Repels rain for remarkable improved vision
- Makes is easier to clear ice, snow and even dirt
- Reduces glare in the rain, especially at night
- Helps reduce water marks and keeps down salt water

## Why VisionBlade®?

A University of Michigan study indicated that auto glass treatments can improve a driver's visual acuity by nearly 35%. Additionally, a driver's response time to identify a small target was improved from four second to three second. At 45 mph that represents 58 feet.

### VisionBlade® kit includes:

- 24 labeled applicators
- 1 printed carton
- 1 die cut insert for product nesting
- 24 windshield stickers
- 24 brochures
