

*Will effectively and quickly remove stains on fabrics caused by grease, oil and food stains.*

## Where To Use

Commercial laundry Operations  
Restaurants  
Country Clubs  
Health care facilities  
Heath Clubs  
Hotels

## Dilution

As is.

## Directions

Separate items requiring spot treatment. Treat stains as soon as possible as recent stains are more easily and effectively removed. Test fabric for dye stability by applying a small amount of Prespotter to an inconspicuous area of the fabric. Apply Prespotter directly onto the stain, rub undiluted product into soiled area. Wait 5 to 10 minutes before laundering.

Follow safe handling procedures when using all chemicals – wear appropriate personnel protection. Refer to product SDS for further instructions and safety procedures.

## Technical Specifications
