

A non-foaming chlorinated caustic cleaner for use in circulation or spray cleaning operation.

Where To Use

Dairies Meat packing plants
Egg farms Food and Beverage plants

Dilution and Direction

For general pressure washing dilute Pace up to 1/120 at use dilution. Always rinse thoroughly. For CIP cleaning of dairy process lines rinse first with warm water. Next, circulate Pace at a dilution of up to 1 fluid ounce per gallon of tank capacity for 15-20 minutes. Follow with cold water rinse.

Technical Specifications

COLOR:	Transparent	STORAGE(Unopened):	. 1 Year @R.T.
FORM:	Liquid	BIODEGRADABLE:	... Yes
SCENT:	Chlorine	WEIGHT/GAL: 10.0
pH:	14.0	SHIPPING CLASS: 8, Packing Gr II
FLASH POINT:	None	USDA:.....	A-1
PACKAGING:	.. 5 gal, 30 gal, 55 gal		
TYPE:	Chlorinated Caustic Cleaner
