

# Non-Acid Bathroom Cleaner

RTU Bathroom Cleaner

## Bathroom

### Description

Non-Acid Bathroom Cleaner has been specifically formulated to eliminate organic waste and deposits from lavatory and restroom areas. It works quickly to clean up urine, fecal, and vomit residues from toilets, basins, urinals, and porous tiles when used on a regular basis. It also contains complex surfactants to superiorly clean all bathroom surfaces including porcelain and enamel. The pleasant odor of the product will leave all surfaces smelling fresh and clean without irritating fumes. This product may be used everyday without deleterious effects.

### Directions for Use

This product is a Non-Acid bathroom cleaner that will not harm many surfaces such as carpeting, resilient tile, flooring, and stone flooring if spilled. Squeeze 1 to 2 ounces up under the rim of the bowl and allow it to coat the exposed area. Then swab the entire bowl with a bowl mop concentrating under the rim. Flush toilet. Rinse bowl mop thoroughly

To clean bathtubs, sinks, wash basins, shower stalls, drinking fountains, and other enameled and plated surfaces: dilute with 1 part water. Clean area and rinse with clear water.

### Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.
