

Pronto Plus EZ

Premium Enzymatic Laundry Detergent

Laundry

Description

This non-built laundry detergent is fortified with **enzymes** which is designed to be equally effective in hot or cold water. This product is formulated only for multi-component automatic dispensing systems where the toughest, most troublesome laundry problems exist. This product contains optical brighteners, fast acting cleaning agents and **enzymes** and is effective on natural and synthetic fibers. Highly concentrated for use in hotels, motels, schools, hospitals, and nursing homes. It also provides a thorough cleaning by preventing redeposition of particulate, which can cause discoloration and break down in the strength or fabrics. Cleaning is provided through the use of modified detergents rather than strong alkaline booster compounds.

Directions for Use

Always follow garment manufacturers general washing instructions to retain quality of garment. This modern controlled suds formula is designed to act quickly to break down stubborn dirt grease and oils. For general laundry usage (top load machines) use approximately 3 ounces per load for larger loading machines or for heavier soiled loads use 4 ounces per load. Automatic dispensing units are most widely used today for simplicity, due to the fact that they are programmed to deliver exactly the amount needed for different sized loads and solid levels. In most cases, the average 50-pound commercial machine will require 4 to 8 ounces per load.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- Economical highly concentrated
- Formulated for multi-component systems
- Contains anti-redeposition ingredients
- Cleans with built modified detergents
- Fortified with Enzymes
- Quickly breaks down greases and oils
- Rinses freely and completely

Specifications

Appearance:	Blue Liquid
