

S31 Floor Finish

36% Super Concentrated Acrylic Floor Finish

Hard Floor Care

Description

S31 Floor Finish is a super concentrated premium urethane fortified floor finish that has been used on thousands of square feet in grocery stores, convenience stores and retail shops exceed industry standards for durability, shine, and bounce back beauty. Dries to brilliant gloss and maintains easily with spray buffing or high speed burnishing. Product must be applied in thin coats.

Directions for Use

Dilute product as needed to produce desired finish percentage, (Example: Dilute 2 to 1 to produce 18% finish), then used in the following manner.

Clean floor surface with a neutral detergent. If a stripper or alkaline detergent is used, rinse with clean water containing a neutralizer to insure proper coating and wear properties. Apply finish with an applicator or quality string mop generously without puddling to insure adequate protection and easy maintenance. For best results apply two or three coats, allowing polish to dry between coats (about 30 minutes depending on ventilation, humidity and temperature). Porous surfaces should be sealed with an appropriate sealer or an extra coat of this finish. Maintain floor by daily sweeping or dust mopping. When necessary damp mop with a mild detergent. Recoat as desired. Spray buff only with a high-speed system compatible with the finish to insure re-coatability and performance. Strip only when necessary using a recommended stripper. Since build up is seldom a problem in busy areas recoat traffic lanes to insure uniform protection and beauty.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.
